

Pro-Man Digital Winch

Model : 12182

Manufacturer : Pro-Man

Pro-Man Digital Winch

Pro-Man Digital Series winches are rated for a working load of 450 lb (205 kg). These winches are capable of holding up to 300 ft of 3/16 stainless steel cable or rope (not included). Features digital usage indicator, 3 pawl braking system, centrifugal back-up break and brake-wear indicator. Digital winches feature 2 speed silent operation, black power coated die-cast aluminum construction, removable crank handle, carrying handle, mounting knob for quick mount plates, and operators manual. (Winch mounting bracket not included).

- Man rated for raising, lowering or supporting personnel.
- Designed specifically for confined space entry / retrieval.
- Digital counter monitors extent of winch use.
- The load can only move if the handle is turned. A friction brake is engaged by a minimum of 10lbs (4.5Kgs) weight.
- Triple redundant braking mechanism with inertial (centrifugal) safety back up brake.
- Brake pad wear indicator constantly monitors the condition of the braking mechanism.

Standard cable assemblies for Digital Winches are made of 3/16" stainless steel aircraft cable, and come with double-locking swivel snap hook and reversed cable protector. Standard lengths are available from 70' (21Mtrs) to 300' (91Mtrs).

DATA

Model

Digital 100 - 12182

Digital 200 - 12183

Digital 300 - 12184

Cable Capacity 3/16" (5mm)

100' (30.5Mtrs)

200' (61Mtrs)

300' (91.5Mtrs)

Cable Capacity 3/8" (10mm)

50' (15.2Mtrs)

70' (21.3Mtrs)

125' (38.1Mtrs)

Non-standard lengths and/or 3/8" (10mm) dia cable available to special order.
