

## Ladder Safety Kit

Model : KITLADDER1

**Manufacturer : CSS Worksafe**

Ladder Safety Kit from CSS Worksafe  
As used extensively by the Satellite & Aerial Industry  
Comprises of:

- CSH2 2 Point Full Body Harness
- 1 x 10 Mtr x 11mm Dia Kernmantle Rope c/w Manucreche Hook
- SKR Rope Grab & Karabiner
- Cowstail Webbing Strop
- Pair Ladder Tensioning Straps
- Pair Removeable Ladder Ties
- Kit Bag

Over the past three years CSS Worksafe have worked closely with the Health & Safety Executive and the Confederation of Aerial Industries to provide a safe system of work at height for aerial & satellite dish installers that maintains the balance between speed and safe practice. This safe system of work has been accepted by the HSE as 'Best Practice' and can be adopted by a wide range of trades people that work from ladders. Normally some training is required to illustrate safe working practice.

**Price : £211.00(Ex.VAT)**
